

Thank You, Task Force Volunteers!

The COVID-19 Response Task Force depends on the dedication and skills of its volunteers. The task force was formed in 2020, and as soon as the call went out for volunteers, we were overwhelmed by the response. It is only with the generosity and commitment of our hundreds of volunteers that we have succeeded in vaccinating thousands of county residents and are able to continue the work we are doing to conquer the virus and help to ensure the health and safety of county residents and visitors.

Our volunteers are the very heart of our COVID-19 response.

It is with sincere gratitude that we acknowledge the service of all who have devoted and continue to devote their time and talent to this important endeavor.
