

Cacoon Program

There is a program for families with children who have special health care needs. Along with the services listed above, the nurse will:

- Answer questions about your child's health needs and special care
- Help you find special services your child may need
- Help you talk with specialists and clinics where your child receives care
- Show you ways to make your child's health and growth the best they can be
- Help you prevent problems that may be common for children with your child's special health needs

CaCoon

Breastfeeding Your Baby

If you are a professional who would like to refer Clients to our programs, see forms at the bottom of this page and fax to (503) 325-8678.
