

SURPLUS COUNTY PROPERTY/HOUSING PROGRAM

Clatsop County continues to entertain proposals from cities and nonprofits for the use of surplus county-owned property to help address local housing and other public service needs.

The available lands inventory is reviewed and updated for potential uses in compliance with ORS 271.330, which allows Clatsop County to relinquish title to another governmental body if the property is used not less than 20 years for public purpose or to a qualifying nonprofit, if the property is used for low income housing, social services, or child care services.

The following properties, listed by taxlot, have been added to the list of those available through this program. To find out more, enter the taxlot number in the [Webmaps property information app](#).
