

Clatsop County Jail Relocation

The need for an expanded or new jail facility has been a priority for Clatsop County for many years. Reviews of existing conditions, bed needs and space program studies have been provided indicating the need for more beds is overdue.

A design, plan and cost estimate was developed based on previous studies and standard industry practices, and the resulting approximate 50,000 SF 148 bed floor plan with 7 housing classifications is proposed.
